This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

MANUFACTURED BY

THOMAS J. DUDLEY & CO.,

UNION FURNACE WAREHOUSE,

No. 97 Main, Corner of Quay Street.

This article was constructed in consequence of a suggestion from the American Institute, that a simple, portable and low priced Furnace was much wanted by Farmers and others, for boiling or steaming food, preparing maple and beet root sugar, and for many mechanical purposes. It is so formed that a space from one or two inches is left between the boiler and the casing that surrounds it, causing the heat in its passage to the pipe, to encircle all parts of the boiler even to its upper edge.

☞ The American Institute awarded a silver Medal, also premiums at the State and County Fairs where exhibited.

LAFAYETTE

BURR MILLSTONE

MANUFACTORY.

WILLIAM TYACK

Has been in the habit of going to France annually and selecting the Blocks at the Quarries with his own hand, personally; it ensures to the Burrs of his manufacture, a decided preference over the Blocks imported by Merchants to order, who are not, nor can they be, accurate judges of the article unless they manufacture them.

Persons giving orders for Burrs, are requested to be very particular in stating whether they are wanted for all kinds of grain—say country work generally—or for flouring alone, as it is of the utmost importance that the temper of the Burr should correspond with the kind of grain to be manufactured.

Millwrights, Millers, and gentlemen who are judges of the article, are invited to call at

No. 240 Washington Street,

Corner of Robinson, and examine the materials and workmanship.

CAST STEEL SAWS.

The Subscribers manufacture from the BEST CAST STEEL, Circular Saws, from two to sixty inches in diameter; also

Mill, Pitt, Cross-Cut & other Saws,

All of Superior quality. They also state that these saws are ground by their patent machinery, which enables them to claim exclusively for their Saws the advantages derived from the use of these machines, which are highly important, as the Saws are thereby made perfectly true and regular in thickness, or thick or thin at any part, thus strengthening Circular Saws by gradually increasing them in thickness from the cutting edge to their centre. The truth and uniformity of their surface renders less set in the saw teeth necessary, and on this account less power is required to drive the saws; besides, they will not need so frequent sharpening—be less liable to become heated, and also produce saving in timber.

☞ These Saws may be had of the subscribers, or at the principal Hardware Merchants in this city and throughout the United States.

Needles of all qualities and prices for sale on the best terms. Needles for Surgeons, or for other scientific purposes, manufactured to order.

CAUTION.

J. Warrin's Needles have received the approval of the public for upwards of twenty years, and in consequence of their great celebrity, some unprincipled dealers have imitated his labels, and put them upon inferior low-priced Needles. The counterfeit label imitates the genuine one in its general appearance, and reads, "MANUFACTURED FOR J. WARREN, REDDITCH." On the genuine, Warrin is spelt with an I, (not E,) and reads, "MANUFACTURED BY (not FOR) J. WARRIN, REDDITCH." In addition to the GILT label, on the genuine Warren Needles, they have a small green label on the tuck, or shorter fold of the paper, which reads, "MANUFACTURED AND WARRANTED BY J. WARRIN, EAGLE MILLS, REDDITCH." Legal proceedings having suppressed one, ☞ another imitation has made its appearance; which reads, Manufactured "*for J. Warren, at Alcester, near Redditch.*" Dealers are cautioned against this new imitation. ☞ Dealers are cautioned against vending Needles counterfeiting the Trade Marks of the subscriber.

J. WARRIN,

KUMBEL'S PATENT,

Machine Stretched

LEATHER BANDING,

THE ONLY PATENTED BAND IN THE UNITED STATES,

Which has again been honored with the Highest Premium, a Gold Medal, (and the only bands which have ever received a Gold Medal in this country,) from the American Institute at the Fair of October, 1849, after being severely tested in competition; thus recognizing, from a most thorough practical and public trial, that rank and position which the manufacturing community has long since assigned it, as the

BEST LEATHER BAND

MANUFACTURED IN THE UNITED STATES.

This Banding is made of the solid part only, of the BEST OAK LEATHER, is thoroughly stretched, cemented, and riveted, will run straight, and has a perfect bearing upon the pullies.

From the superior mode of its manufacture, it possesses remarkable STRENGTH AND DURABILITY, beyond any Banding manufactured. It also excels in its running qualities, any Band made upon other principles or of other materials.

The Belt made of leather is the only one that can be relied upon to perform well in all situations. It neither melts with friction, sticks to the pullies, nor frets into shreds; nor is it subject to sudden combustion and destruction; all which are marked characteristics of Belings made from gums.

The Patent Machine Stretched Leather Banding, as made by the subscriber, will stand more heat, more cold, more friction, and is far more durable than those above referred to, and for all practical purposes; it can also be made water proof.

The best evidence of its quality is its adoption by nearly all extensive MANUFACTURERS and MACHINISTS throughout the city and country, the RIVER AND SOUND STEAMERS, and (with marked approbation) by the various LINES of OCEAN STEAMERS. Since its introduction by the subscriber, it has revolutionized machinery to the general exclusion of gearing; and the approval of *practical mechanics* is further emphatically expressed by the steady increase in the demand for it from year to year. Every Belt is warranted to possess all the qualities requisite for durability and good performance, or the money returned.

They can be furnished of any length or width, from 1 to 24 inches, either single, double, or round.

Also, superior Lace Leather, with rivets, burrs, punches, sets, &c.

G. P. THURSTON'S

CELEBRATED IMPALPABLE

IVORY PEARL TOOTH POWDER.

Long life, health, happiness, beauty, love, depend on sound and handsome teeth.

In selecting an article of dentifrice for the teeth, great care should be taken to avoid every thing which possesses a particle of grit or acid substance, as both are destructive to the enamel. Caution should also be used by parents purchasing for their children, to refuse every thing which is not recommended by the very best authority, men of great learning and high moral worth, and whose opinions cannot be bought with dollars and cents.

This article has now been before the public for nearly three years, during which time it has received the universal approbation of all who have chanced to use it.

100,000 bottles have been sold since it was introduced.

The following diplomas, as well as certificates from James R. Chilton, M. D., Practical Chemist, and John Torrey, M. D., Professor of Chemistry, can be seen at the office of the proprietor.

Boston, November 6, 1847.

Mr. G. P. Thurston—Sir:—I have only time to inform you that a Diploma has been awarded to you for your very excellent Dentifrice. I have tried it, and am convinced that it is the best and most effectual in its operation upon the teeth of any with which I am acquainted.

Respectfully your ob't servant,

JOHN KUHN,

Sec'y Mass. Charitable Mech. Asso.

This is to certify that I have sold more of your Ivory Pearl Dentifrice than all other Dentifrices combined, of which I have a great variety. It is universally approved.

WM. ELY CHILSON,

Late Roussel's, 305 Broadway.

To Mr. G. P. Thurston, City of New York, April 12th, 1848.

Many other important recommendations can be seen at the office.

A liberal discount will be made to the trade. Depot of the proprietor,

BEWARE OF FRAUD!—Owing to the great celebrity which the above article has acquired during the last two years, a few of the baser portion of mankind, regardless of the evil they may produce, have attempted to counterfeit it under the head of "J. B. Thurston's Ivory Pearl Tooth Powder," copying my name and the name of my article as near as possible, and keeping within the limits of the law. All who have used the genuine article will discover so perfect an abortion in these counterfeits, in the style of putting up, and in every other respect, as to keep them out of harm's way.

NEW YORK, April, 1850.

Experience is the basis of all real knowledge. To see and to feel is to know, and that which is seen and known must not be contradicted. When Galileo announced the discovery of new planets, the Aristotelians said, "This is impossible." Galileo replied, "Look through my telescope and behold." The philosophers rejoined, "We will not look lest we should see them." There are a few people now-a-days so silly that they will not look at facts lest some prejudice should be disturbed. These persons are, however, not numerous, and their stupidity injures no one but themselves. The character of Dr. S. P. Townsend's Compound Extract of Sarsaparilla rests upon universal experience alone. Without this solid foundation, it never could have attained the wide spread popularity which it at present enjoys.

Important Notice.

The remarkable sanative powers of Dr. S. P. Townsend's Sarsaparilla, have induced numerous attempts to counterfeit it, and make fraudulent use of Dr. Townsend's name to secure the sale of spurious articles.

These counterfeits and imitations only prove the value of the original; and no higher compliment could be paid to Dr. S. P. Townsend's Extract of Sarsaparilla than the laborious efforts that have been made by many to get up something like it. As to the dishonest attempts that have been made so to use Dr. Townsend's name as to create confusion in the public mind in reference to the genuine article, we publish below a card of all the principal wholesale Druggists in New York.

We, the undersigned, Wholesale Druggists in the city of New York, have sold Dr. S. P. Townsend's Extract of Sarsaparilla for several years, and consider it the original and genuine Dr. Townsend's Sarsaparilla, and that it was the first introduced to public notoriety under that name.

TO THE PUBLIC.

The public are hereby notified that the preparation extensively known as Dr. S. P. Townsend's Compound Extract of Sarsaparilla, is now manufactured under my direction and supervision, from the original recipe obtained from Dr. S. P. Townsend; and I hereby certify that it is composed of ingredients purely vegetable, and without mercury, and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medicinal effect.

JAMES R. CHILTON, M. D., Chemist.

Dr. Chilton's name is surety that the elements of this extract are combined in the most correct and scientific manner, and that it is adapted to the wants of the invalid with the highest professional ability.

This, we hope, will be sufficient to guarantee to the public, and to those purchasing Dr. S. P. Townsend's Compound Extract of Sarsaparilla. Such may have no fear of getting one of the spurious and baneful mixtures which fill the channels of trade, and are concocted without any knowledge either of the nature of remedial agents, or the wants of the human system when laboring under disease.

Dr. S. P. Townsend's Sarsaparilla is warranted to keep for any length of time in all climates.

CAUTION.

To avoid imposition, it will be necessary to see that Dr. James R. Chilton's Certificate, as well as the signature of Dr. S. P. Townsend, is on the outside wrapper of each bottle.

Dear Sir:—I take great pleasure in bearing witness to the surprising efficacy of your Magnetic Powder, which has completely driven from my residence the roaches, with which it was infested to a most annoying extent.
